Lizenz-Nr. 1068

Inhaltsverzeichnis/Contents

CRALLEY, J. C., J. M. SCHUBERTH and K. L. FITCH: The Deep Band of the Plantar Aponeurosis of the Human Foot. With 5 Figures	189
DALL PAI, V., I. R. DOS SANTOS COSTA and P. R. CURI: Postnatal Growth of Fibres on <i>M. gracilis</i> (pars caudalis) in Both Sexes of Rat. With one Figure and 3 Tables	53
DURST-ŽIVKOVIĆ, B., and A. SEKULIĆ: Fetal-Maternal Interface of Human Embryonic Membranes. With 2 Figures and one Table.	325
FEHRMANN, P., S. SCHMIDT, P. L. FEHRMANN, R. SULZMANN und H. ZÜHLKE: Zur morphologischen und biochemischen Charakterisierung der Langerhansschen Inseln von mit Glibenclamid und Glukose belasteten C57BL/KsJ-Mäusen. Mit 5 Abbildungen und 2 Tabellen On the Morphologic and Biochemical Characterization of the Islets of Langerhans of C57BL/KsJ-mice Treated with Glibenclamid and Glucose	159
FERRAZ DE CARVALHO, C. A., and B. KÖNIG Jr.: Light and Electron Microscopic Study on the Oxytalan Elaunin and Elastic Fibres in the Inferior Segment of the Human Esophagus. With 9 Figures.	141
GIERSE, H.: Die morphologische und funktionelle Struktur der talaren Gelenkflächen des Kalkaneus. Mit 8 Abbildungen und einer Tabelle The Talar Articular Surface of Calcaneus. A Study of the Morphological and Functional Structure	67
GILANI, S. H., and T. V. N. PERSAUD: Teratological Evaluation of Prostaglandin A ₁ in the Chick. With 3 Tables.	199
GULISANO, M., S. ZECCHI, P. PACINI and G. E. ORLANDINI: The Behaviour of Some Human Arteries as Regards the Corrected Circumference: A Statistical Research. With 4 Figures and 22 Tables	341
GUPTA, S. C., C. D. GUPTA and P. JEYASINGH: Intrahepatic Topography of Portal Vein in the Chick (<i>Gallus gallus domesticus</i>). With 7 Figures and 2 Tables	47
HAHN VON DORSCH, H., und H.-M. DITTRICH: Die Diabetesforschung in Greifswald im 19. Jahrhundert und am Beginn des 20. Jahrhunderts in ihrer Bedeutung für die Diabetologie. Mit 2 Abbildungen und einer Tabelle. Diabetes — Research in Greifswald in the 19th and at the Beginning of 20th Centuries and its Importance for Diabetology	435
HOLLAND, G. R.: Extensive and Coincident Side Branching of Dentinal Tubules. With 9 Figures	171
JEYASINGH, P., C. D. GUPTA, A. K. ARORA and S. K. SAXENA: Study of Os japonicum in Uttar Pradesh Crania. With 3 Figures	27
KISS, A., and D. BORŠOŠOVÁ: Morphological Study on the Central Subdivision of the Rat Hypothalamic Ventromedial Nucleus. With 16 Figures.	113
KLEINEBRECHT, J., J. SELOW and W. WINKLER: The Mouse Mutant Limb-Deformity (ld). With 9 Figures and 2 Tables	313
KUBOTA, K., T. KATAYAMA and K. TAKADA: Pulpal Nerve Fibers in the Tupaia and Japanese Monkey Teeth. With 5 Figures	221
LANG, J., und E. SAKALS: Über den Recessus spheno-ethmoidalis, die Apertura nasalis des Ductus nasolacrimalis und den Hiatus semilunaris. Mit 8 Abbildungen	

About the Spheno-ethmoidal Recessus, the Nasal Aperture of the Nasolacrimal Duct and the Hiatus semilunaris	393
LEKNES, I. L.: On the Ultrastructure on the Ventricular Endocardium and Bulbar Endothelium in 3 Teleostean Species. With 7 Figures	125
LOPES, R. A., M. L. SOUZA and R. AZOUBEL: Morphometric Study of Malformations Induced by Hypervitaminosis A on Rat Fetuse Meckel Cartilage, Maxillary Bone and Mandible. With 2 Figures and 2 Tables	329
LOZUPONE, E., and A. FAVIA: Density of Trabecular Framework and Osteogenic Activity in the Spongiosa of Long Bones Subjected to Drastic Changes in Mechanical Loading in the Dog. With 11 Figures	245
MÂRZA, V. D.: The Vascular Biological Stereotype and the Achievement Problem of the Neurohumoral Integration during Phylogenesis. With 2 Figures	275
MIHAIL, N., and C. CRĂCIUM: An Ultrastructural Description of the Cell Types in the Endocrine Pancreas of the Pigeon. With 6 Figures	229
MOUSSA, M. H. G.: Micromorphological Study of the Blood Vessels of the Teat of Buffaloes in Egypt (<i>Bos bubalis</i> L.). With 18 Figures and one Table	129
NAVARRO, J. A. C., J. L. T. FILHO and N. L. ZORETTO: Anatomy of the Maxillary Artery into the Pterygomaxillopalatine Fossa. With 8 Figures and 4 Tables.	413
NIZANKOWSKI, C.: Zusammenhang zwischen Nierenform und Nierenbeckentyp beim Menschen. Mit einer Abbildung und 6 Tabellen Correlation between Kidney Shape and Type in the Human Kidney	363
NOVOTNY, G. E. K.: A Relative Volumetric Analysis of the Lateral Geniculate Nucleus after Enucleation. With 2 Figures and 5 Tables	209
PIFFER, C. R., and N. L. ZORZETTO: Mesoscopic Study on the Bulbus venae jugularis superior. With 6 Figures	31
PORWOLIK, K.: Kriterien des normalen Baus der Wirbelsäule bei Schulkindern auf Grund spondylometrischer Untersuchungen. Mit 3 Abbildungen und einer Tabelle Criteria of the Regular Spinal Column Structure in Schoolchildren Based on the Spondylometric Studies	453
PRAKASH, P.: A Quantitative Morphological Study of Skeletal Muscle in Castrated Goats. With one Figure	61
PRZEDPELSKA-OBER, E.: The Development of Muscle Spindles in Human Fetuses. With 6 Figures	371
SAGER, G., und R. SAMMLER: Zum Längenwachstum des Thuns (<i>Thunnus thynnus</i> ♂) nach Daten von SELLA. Mit einer Abbildung und 5 Tabellen Length Growth of the Tunny (<i>Thunnus thynnus</i> ♂) after Values of SELLA	79
SAGER, G.: Mathematische Formulierung des Gewichts-Längen-Somatogramms von HELLBRÜGGE und VOGT (1961) und Vergleich mit den Daten von MAASER (1974). Mit 2 Abbildungen und 5 Tabellen Mathematical Formulation of the Height/Weight Tables of HELLBRÜGGE and VOGT (1961) and Comparison with the Dates of MAASER (1974)	179
SAGER, G.: Mathematische Interpretation des Somatogramms von HELLBRÜGGE und VOGT (1961). Mit 4 Abbildungen und einer Tabelle Mathematical Interpretation of the Length/Age Tables of HELLBRÜGGE and VOGT (1961)	263

SAPIN, M. R., und K. A. USSOWITSCH: Zur Topographie des großen pankreatiko-duodenalen Lymphknotens. Mit einer Abbildung On the Topography of the large Nodus lymphaticus pancreaticoduodenalis	449
SAVINO, W., L. CAMARGO DE MOURA-CAMPOS and G. LEMOS SANTA-ROSA: Cold as an Agent to Induce Thymic Involution in the Golden Hamster. With 2 Figures	239
SCHWARTZ, J. H.: Dentofacial Growth and Development in <i>Homo sapiens</i> : Evidence from Perinatal Individuals from Punic Carthage. With 14 Figures	1
SINHA, D. N., and H. C. VARMA: Cartilage Canal and Chondroepiphysis of the Lower End of the Femur of Human Fetuses. With 8 Figures	461
SKOPAKOWA, K., und CHR. SKOPAKOFF: Abarten des Bisses, des Durchbruchs und der Anordnung der bleibenden Zähne bei Hunden nach Unterbrechung der Innervation und der Blutversorgung des Unterkiefers. Mit 7 Abbildungen Deviations of the Bite, Growth and Arrangement of the Permanent Teeth by Dogs after the Interruption of the Innervation and Blood-Supply of the Lower Jaw	39
SOUZA, R. R. DE, S. FERRI, C. A. FERRAZ DE CARVALHO and G. S. PARANHOS: Myenteric Plexus in a Freshwater Teleost Intestine. I. Quantitative Study of Nerve Cells. With 3 Figures and 2 Tables	359
TEWARI, P. S., V. K. MALHOTRA, S. K. AGARWAL and S. P. TEWARI: Preinterparietal Bone in Man. With 3 Figures	337
TORRE, C., F. VIGLINO and C. CARDELLINI: A Case of Dysembryogenesis of the Aortic Arches. With 3 Figures	203

Kurzmitteilungen—Brief Reports

WINKELMANN, E.: Simple and Serial Synapsis in the Visual System: Principal Differences in Neuronal Connectivity of Cortical and Subcortical Neuropil. With one Figure	293
KONSTANTINOVA, M. S.: Monoaminergic Structures in the Hypothalamo-hypophysial Complex (HHC) in early Postembryonic Ontogenesis of Siberian Sturgeons <i>Acipenser Baeri Stenorhynchus</i> A. Nikolsky. With one Figure	381
DYCK, J., J. FANGHÄNEL, CHR. WILKE und G.-H. SCHUMACHER: Lärm- und Keimesentwicklung. Mit 2 Abbildungen Noise and Germinal Development	385
HALBHÜBER, K.-J., und W. LINSS: Nachweis von NADP(H)-Oxydase-Aktivität in Peritonealmakrophagen bei Erythrophagozytose. Mit 2 Abbildungen Detection of NADP(H)-oxydase Activity in Peritoneal Macrophages during Erythrophagocytosis	467
Buchbesprechungen/Book Reviews	38, 46, 60, 66, 78, 92—112; 158, 170, 198, 202, 207; 220, 228, 238, 244, 262, 292, 296—312; 340, 358, 384, 388—393; 434, 460, 470—472
